PROJECTS

TrackHub, (trackhub.chsyamkumar.in) 🖉
- Developed and deployed a full-stack expense tracking application, TrackHub, using Spring Boot for the backend and Next.js for the front end & deployed in Vercel.com
- I have implemented robust login authentication mechanisms to ensure secure access and data integrity.
- Utilized AWS RDS with MySQL to manage and store expense data, ensuring scalability and reliability.
- I deployed the application on Vercel, optimizing performance and providing a seamless user experience.

Portfolio, (chsyamkumar.in) 🖉
- I created a modern and user-friendly portfolio website to showcase my skills and previous work experience to potential employers and collaborators.
- The website is hosted on Vercel.com, guaranteeing smooth and hassle-free access to my contact information.
- To develop the website, I utilized React JS and Tailwind CSS technologies.

CSI SB Web Portal, (csisb.chsyamkumar.in) 🖉
- I have designed and developed a website to showcase the various activities and achievements of the CSI SB team.
- The website offers visitors an immersive experience of the CSI's initiatives and events. I have also implemented interactive features such as galleries that showcase past events.
- To develop this website, I utilized HTML and CSS.
